# One single Plan for Education

## What is it all about?

Blaenau Gwent Education Department is making a new education plan to help support our schools. The plan is looking at how well pupils are doing in exams and making sure there are the right number of places for pupils in our schools.

The plan shows us how all organisations will work together to increase opportunities for pupils and students and hopefully improve our results.

## Why a Plan?

The Education Department needs to be sure that all learning activities are of the highest quality.

The Welsh Assembly Government wants to know what the department's plan of attack is too!

After all, we all want to achieve the best possible results!

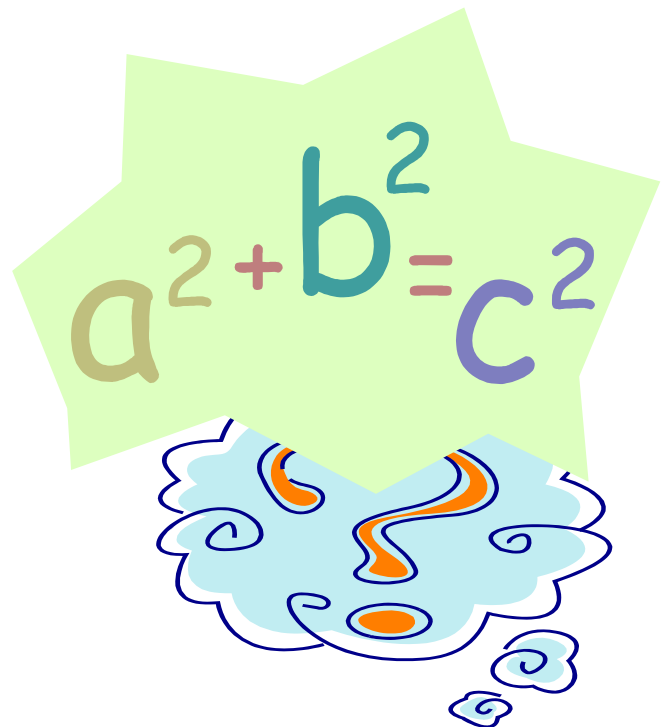

## What are we going to do?

The Education Department will work

with pupils, parents and teachers to:

- Help them look at how well the schools are doing and see if they could do any better
  - Look at the schools that are doing well and share this with others
  - Get all schools to work together
  - Celebrate our Welsh language
  - Make sure we all have as many opportunities as possible
  - Help us to increase our access to facilities and activities
  - Make our school buildings better and look at the number of pupils in our classrooms
  - Help the pupils that are not doing as well as they could be in school.
- We need to know what you think?

Some questions for you:

1. Whether we're going about this the right way – will these ideas make a difference in your life?
2. Your thoughts on how we should do some of these things
3. What do you think of this plan?

*If you would like to view a full copy of the Single Education Plan please contact Julie Parry at the Education Department on 01495 355658.*

*Please send your comments to:*

The plan says we'll do...
