

Grid Ref: 314389 210764

Description:

This is a vacant site situated within the well-established Crown Business Park which is located off the new Heads of the Valleys Road. Access can be achieved from the existing highway infrastructure serving the employment units. The site is a flat, grassed platform where there are ordinary watercourses present.

Delivery Considerations:

Nant Melyn Brook crosses through part of the site which should be protected from development by a 5 meter buffer. The presence of a wet ditch along the western boundary, and dense, scattered scrub around the peripheries should also be protected. Along the western boundary of the site is a hedgerow which should be protected as part of any development proposal. Transport infrastructure improvements may be required to ensure developments are highly accessible.

Further Information and Support:

SAB approval will be required for all new development over 100 sqm. For further information click [here](#)

The **Planning Department** provides a Planning Advice Service where more specific advice will be given on development proposals. Details of the service provided and the relevant charges can be found on the [Blaenau Gwent website](#).

Blaenau Gwent Local Authority **Building Control** can oversee and guide your building regulation application in a quick, professional and responsive manner. Our service is extremely competitive. More information can be found on the [Blaenau Gwent website](#).
